Subject: Communications with ECHA

Jewell and Nick –

I want to emphasize my interest in speaking with one of you ASAP. The access agreement and mowing operations are matters of very significant importance. EPA, with ATSDR's consultation, is trying to take all available steps to immediately reduce risks of exposure and understand the scope of the problem.

On the call at 4 central today, EPA and I established a bi-weekly call on Mondays at 4:30 and Thursdays at 11 (central time) to be sure that communications between the US, the City, and the ECHA from this point forward improve. It is imperative that one or both of you be on these calls. If these two times are not good for you, name other times.

Thank you for very promptly forwarding this email and all emails that I or EPA personnel may send you to your client.

Again, please call me. 202-532-3275.

Annette
